

Holidaying on the Continent

This book is a research document into the impact that Bomber Command and 460 Squadron had on the outcome of WWII, which also tells the story of one RAAF Volunteer's journey to become a 460 Squadron Bomb Aimer flying operations over occupied Europe, being shot down after bombing Berlin and his adventures 'holidaying' in a POW camp before escaping the Russian army to get back to England and home to Australia.

As with the **Vision** of the
460 Squadron Veterans and Friend Group,

Holidaying on the Continent

has the aim of

Keeping the Veterans' Flame Alive.
